## COMPANY OVERVIEW

Mark Gilvey Creative, LLC is a specialized visual media firm providing technical photography and digital heritage preservation for the industrial, federal, and commercial sectors. Based in Woodbridge, VA, we operate a 1,100 sq. ft. commercial studio specifically equipped for high-precision product imaging, freight-scale logistics, and museum-grade archival documentation. Since 1985, we have translated complex technical processes into high-resolution visual assets for mission-critical applications.

## CORE COMPETENCIES & FACILITIES

- **Industrial & Manufacturing:** Technical documentation of shop floors and CNC assembly lines. **OSHA-compliant/PPE-ready** for active manufacturing environments.
- **Archival Restoration:** Museum-grade digital preservation of artifacts and historical documents (19th-century through modern media).
- **Remote Logistics:** Full-service **"Ship-to-Shoot"** imaging featuring a **13ft freight-ready bay door** for palletized delivery and secure, climate-controlled storage.
- **Elevated Mast Imaging:** Specialized **26ft "High Shot" system** for commanding aerial perspectives within restricted **"No-Fly" zones**.
- **Technical Accuracy:** **X-Rite ColorChecker certified** workflows for 100% chromatic accuracy and large-format printing for environmental murals and trade show displays.

## DIFFERENTIATORS

- **Secure Chain of Custody:** Proven experience handling sensitive, pre-release electronic prototypes and military-grade hardware with **"Same-Day" secure digital capture**.
- **40 Years of Expertise:** Continuous professional operation since 1985 with a focus on technical lighting for reflective surfaces (circuitry, electronics, glass, and polished metal).
- **Zero-Disruption Workflow:** Expert navigation of active manufacturing facilities with strict adherence to safety and security protocols.
- **Manual Artistry over AI:** We guarantee "true likeness" preservation for historical and forensic imaging without AI-generated distortion or "guessing."

## PAST PERFORMANCE (Selected)

- **National Museum of the Marine Corps:** Environmental-scale photographic murals (Medal of Honor Theater); high-resolution technical capture and archival file preparation.
- **Spectra Lab:** High-precision technical photography of computer hardware and circuitry for military-application electronics.
- **Confidential Technical Hardware Firm:** Rapid, secure-studio documentation of sensitive handheld electronic devices for same-day client retrieval.
- **Industrial Architecture:** High-stakes documentation of custom commercial builds and large-scale facility infrastructures.
